

NEB

NEB stands for National Engineering Bureau. The name NEB was originated in UAE and goes back to 1984. Throughout the years, NEB has become a pioneer in delivering Architectural, Engineering, Supervision and Management solutions all over the region.

NEB's identity is made of 1) talented people and 2) impressive track-record. Our people is our capital. Our projects are our assets. We are proud of what we have accomplished so far, and we are delighted to share with the public a historical selection of projects which we delivered and opted to display hereunder (track-record).

NEB stores and supplies diversified expertise pertaining to different types of developments with a focus over residential, commercial, hospitality, retail, educational and healthcare sectors. NEB offers complete in-house scope of services which covers all aspects of a project from inception to completion. Our knowledge encompasses master planning, Concept architecture, Schematic design, fully detailed (architectural, structural, civil, mechanical, electrical), plumbing, HVAC, vertical transportation, curtain walling and any and all associated systems. In addition, we have been offering construction supervision and project management solutions.

Our head office is based in UAE, and we deliver our experience to overseas destinations all over the Middle East, India and North Africa.

Our client is our partner. We value our partners and respect their faith in us. To this end, we have committed ourselves to pursue challenging opportunities wherever they exist and provide the region with simple solutions to the complex challenges ahead.

Our values are constant. Innovation, excellence, leadership, stay productive and stand accountable are the big five components of our mission statement. We have always shared and will continue to share the same values with our partners.
